BABBOE Cargo-E

Electrical Babboe Transporter

Why a transporter carrier cycle?

- Ideal for transporting goods; remain seated at traffic lights
- Very stable when mounting and dismounting; heavy load does not have to be kept in balance
- Durable, weather-resistant decals, can be affixed to the cargo box. Ideal for advertising
- Robust and sturdy lockable cargo box; laden weight up to 100kg. Fitted with lid with gas spring
- Not only handy, but also ideal for commercial purposes. Mobile advertising!

Why an electric transporter carrier cycle?

- The electric assistance helps you to easily cover large distances (range 40 - 60 km)
- With the electric transporter deliveries can be made in the city centre easily and very quickly
- No need to get stuck in traffic, ideal for in the city
- Use instead of using a delivery van; healthy and good for the environment
- Making deliveries with an electric transporter carrier cycle is safe, comfortable and quick!

| Options | - Padlock - Personalised container stickers |

* The Babboe carrier cycles are tested by SGS (independent testing institute). The weights indicated are the maximum values that were tested. Higher values were not tested.

** The actual range depends on the total weight (weight of the cargo bike, rider, load in the box), the state of the battery state, the outdoor temperature, the resistance (wind, tire pressure, speed, road conditions and differences in altitude), the driver's behaviour and the level of assistance.
