### WAAROM DE BABBOE CARVE-E?

- The best of both worlds: the stability of a three-wheel cargo bike combined with the agility of a two-wheel cargo bike.
- Thanks to the 'carve mechanism' the box tilts with the bicycle when taking corners, giving you the feeling you are riding a regular bicycle.
- This results in a unique riding experience and excellent road holding.
- The 'carve-lock' also gives you the possibility to cycle without a tilting box.
- Easily cover long distances, even at high speed and in hilly areas.
- Optional special Maxi-Cosi carrier and extra bench to transport up to 4 kids.
- Electric pedal assistance with 8 settings
